The American College is one of the institutions in higher education known for its focus on academic excellence and social relevance. Its pioneering role in the development of college autonomy in India, its successful beginning of Choice Based Credit System and its completion of 135 years of higher education bear testimony to the position that the college currently enjoys. Originally founded by American Missionaries in 1841, the American College grew into a collegiate department in 1881. Earlier, it was affiliated to the University of Madras and later, it came under the jurisdiction of Madurai Kamaraj University. With its extreme sensitivity to national policies and community needs, the college has grown from strength to strength. It is one of the first set of seven colleges to be made autonomous by the UGC in 1977-1978. Today, the college offers twenty seven undergraduate and seventeen postgraduate programmes. There are research centres offering M.Phil., and Ph.D Programmes in various disciplines. There are other autonomous centres like Department of Applied Sciences (DAS) and Study Centre for Indian Literature in English and Translation (SCILET) that receive national and international attention. Its alumni shine as luminaries internationally as scientists, intellectuals, administrators, corporate managers, statesmen, and leaders. The college has active theatre groups, National Service Scheme and N.C.C. units that offer students a wide range of opportunities to serve society. These activities add up to make the campus vibrant for developing one’s personality. The college has many tie-ups with many state, central and private industries and institutes. An MoU between the American College and Concordia College, New York enables the second year UG students of select departments to complete their degrees at Concordia College under American Transfer Programme (ATP).

VISION STATEMENT OF THE COLLEGE
TO BE A CHRISTIAN HIGHER EDUCATIONAL INSTITUTION OF GLOBAL STANDARDS AND REPUTATION

MISSION
- To train students to be responsible global citizens
- To impart knowledge in every discipline
- To develop in students individual competencies to meaningfully relate with the emerging global space
- To develop vibrant campus sub-cultures of pluralism, Christian inclusiveness, and aesthetic self-expression
- To inculcate in students the highest ideals of service to the poor and the marginalized

QUALITY POLICY STATEMENT
To impart knowledge of global standards with inclusive Christian values for socio-economic uplift.
The College offers the following Undergraduate, Postgraduate and M. Phil. programmes under self-financed stream. Women candidates are admitted in all the self-financed programmes.

**UNDERGRADUATE PROGRAMMES**
- B.A. Hindi
- B.A. French
- B.A. English
- B.Com.
- B.Com. with Computer Applications
- B.Com. (IT)
- B.Sc. Computer Science
- B.Sc. (IT)
- B.Sc. Mathematics
- B.Sc. Physics
- B.Sc. Chemistry
- B.Sc. Bio-Chemistry
- B.Sc. Microbiology
- B.Sc. Visual Communication
- Bachelor of Computer Applications
- Bachelor of Business Administration

**POSTGRADUATE PROGRAMMES**
- M.A. English
- M.Com.
- M.A. Social Work
- M.Sc. Physics
- M.Sc. Environmental Science
- M.Sc. Immunology and Microbiology
- M.Sc. Food Science*
- M.C.A +
- M.B.A +

*Subject to Affiliation
+Separate prospectus and application forms are available.

**M.PHIL. PROGRAMMES**
- M.Phil. Tamil
- M.Phil. English
- M.Phil. Economics
- M.Phil. Commerce
- M.Phil. Mathematics
- M.Phil. Physics
- M.Phil. Chemistry
- M.Phil. Business Administration
ADMISSION REQUIREMENTS FOR UNDERGRADUATE PROGRAMMES

CANDIDATES SHOULD QUALIFY UNDER ANY OF THE FOLLOWING EXAMINATIONS:

1. Candidates who have passed Higher Secondary Examination of the Board of Higher Secondary Examination, Government of Tamil Nadu.
2. Candidates who have passed Senior School Certificate Examination (XII standard) of the Central Board of Secondary Examination with not less than five subjects, of which English shall be one.
3. Candidates who have passed ICS Examination of the Council for Indian School Certificate Examination with not less than five subjects, of which English shall be one.
4. Candidates who have passed any Examination conducted by a State Government or a University or Board under the 10+2 pattern with not less than five subjects, of which English shall be one.
5. Candidates from other universities or bodies and those from other countries having qualification not listed above should send their transcripts to The Registrar, Madurai Kamaraj University, Madurai-625021, Tamilnadu, India and obtain provisional eligibility certificate for admission as per Government of India circular, Ministry of Education, dated 20 April 1992.

ADDITIONAL REQUIREMENTS FOR SPECIFIC PROGRAMMES:

- For B.Sc. Mathematics / Physics / Chemistry: Physics, Chemistry and Mathematics as subjects at the Higher Secondary level.
- For B.Sc. Computer Science: Mathematics as a subject at the Higher Secondary level.
- For B.Sc. IT: Mathematics / Business Mathematics / Computer Science as a subject at the Higher Secondary level.
- For B.Sc. Microbiology: Biology as a subject at the Higher Secondary level.
- For B.Com. / B.Com C.A / B.Com IT: Commerce as a subject under the academic or vocational streams at the Higher Secondary level.

The students of all undergraduate programmes (other than B.Com.) should compulsorily study a language under Part I. Tamil, Hindi and French are the options available.

PROGRAMME DESCRIPTION

B.A. HINDI

Bachelor of Arts in Hindi focuses on employment potentials and promoting higher studies in Indian universities. This course aims at developing the four basic skills in Hindi: speaking, listening, reading and writing and familiarizing students with the knowledge of Hindi phonetics and grammar rules through communicative and interactive methodology. The focus is on detailed knowledge of the Hindi language, its history, poetics, prose, functional languages and its application in modern technologies.

B.A. FRENCH

The Department of French offers comprehensive and competitive B.A. French degree programme considering the rapidly changing global and Indian scenarios. The programme has been structured to meet the needs of today’s society. French is one of the world’s most important languages in terms of its use in a wide range of professional contexts. With B.A French, students are equipped to pursue M.A. French or to become Language specialists in Indo-French companies, European and international organizations. Further, students have the option to become French teachers and translators.
B.A. ENGLISH

B.A. English offers students an excellent academic space to develop their language and literary scholarships. The department empowers students by strengthening their communication skills and ability to analyze all forms of literary expression. The contemporary curriculum includes world literature, Journalism and Mass Communication, and Film studies which help students to be exposed to different literary styles and the impact of language and literature in different media. Students also have the opportunity to study French and Hindi literatures. Further, the curriculum helps them prepare for careers and higher education.

B.COM.

The Bachelor of Commerce programme has a highly specialized curriculum, which helps students develop their competencies in three possible lines. First, the Accounting, Auditing, and Income Tax courses help one seriously think about becoming a Chartered Accountant. The second emphasis is on Costing. Finally, this programme also provides sufficient training for those who aspire to be independent entrepreneurs.

B.COM. (CA)

The Bachelor of Commerce (Computer Applications) is a newly developed programme, which takes into account the demands of the employment market and the opportunities in the field of computation and information technology. For the benefit of students who may not be equipped with basic computer knowledge, this programme offers courses on fundamentals of computer programmes. A number of advanced level application oriented courses that would suit commercial and business practices are also offered. It also takes into account the emerging needs of the global business. At the same time, this programme also emphasizes the core competencies of regular Commerce programme.

B.COM. (IT)

Bachelor of Commerce with Information Technology degree programme aims to provide students an exposure to various fields in commerce and an opportunity to specialize in information technology. Courses to be offered in the programme are designed to meet the demands of rapidly changing world with innovation, market relevance, flexibility and employability. The course acts as a bridge between the academic programme and the actual business world. Students graduating in this course will find a wide range of employment opportunities as financial analyst, financial planner, investment banker, financial accountant, stock broker, small business manager, IT Manager and IT Auditor.

B.SC. COMPUTER SCIENCE

The B.Sc. programme in Computer Science offers a state-of-the-art curriculum which enables students to pursue higher education or opt for lucrative jobs. The success of the programme has been due to innovative teaching methods developed by the department. The programme is also supported by a computer laboratory with the latest hardware configurations. Placement rating is comparatively very high.

B.SC. INFORMATION TECHNOLOGY (IT)

The Bachelor of Information Technology is an innovative program based on a number of core courses which covers the fundamentals of IT. Upon graduation, the students will be able to understand the impact of technological change and also appreciate the current usage of IT in business and industry. Further, the students will be exposed to the current trends in computing which will enable them to become leaders in the IT field. It also lays a strong platform for the students to pursue higher studies in the field of Information Technology.
B.SC. MATHEMATICS

The speciality of Mathematics programme comes from the synthesis of three important factors of curriculum. They are building core competencies in Pure Mathematics, exposing students to frontier areas of Applied Mathematics like Graph Theory and Fuzzy Logic, and innovative teaching methods. Students who undergo this programme easily get admitted to premier institutions. The computer application courses taught here build in students the capacity for writing programmes independently.

B.SC. PHYSICS

The undergraduate Physics programme is primarily aimed at training students to join higher education, higher level research, and application oriented activities that relate to Physics. The courses are planned in such a manner that students gain an adequate grounding in concepts and theories. The department has a well developed laboratory facility that enables students to undergo a very innovative laboratory curriculum. This programme also ensures lateral admission to B.E. programmes.

B.SC. CHEMISTRY

Having a rich experience of more than 100 years of teaching chemistry to thousands of students, the Department of Chemistry now offers B.Sc. Chemistry in the Self-financed stream. The department is well equipped both in human resources and the needed infrastructure. The field of chemistry is of great importance in our day to day life. It is commonly referred to as ‘The Science of Matter’. Students on successful completion of the course have various options for the future. Students can easily get placed in a job with the degree or can go for higher studies or can choose any short term or long term certification courses. Young talents in the field of chemistry are in great demand in both public sector and private sector organizations.

B.SC. BIOCHEMISTRY

The B.Sc. Biochemistry programme has been developed with a special thrust on clinical understanding, drawing implications for human health. Courses like Clinical Biochemistry, Microbiology and Immunology, Molecular Biology, Plant Biochemistry are some of the highlights. There is a heavy slant towards imparting specific skills in biochemical methods. Mention must also be made about the opportunity for industrial placement and for hands-on training. Students completing this programme have wider opportunities in pharmaceutical industries and bio-informatics laboratories.

B.SC. MICROBIOLOGY

The objective of the programme is to acquaint students with technological advance in Biological Sciences. The programme incorporates the following courses: Microbiology, Medical Microbiology, Immunology, Infectious Diseases, Immunotechnology, Bioinstrumentation, Molecular Biology, Genetic Engineering and Nanomedicine. Students will also gain experience in cutting edge microbiological research by carrying out a two term research project in the final year. There are opportunities for funded summer internship with national institutes. Guidance for placement assistance will also be provided. The department has an exclusive air-conditioned laboratory, department library equipped with adequate materials and smart class room facility.

B.SC. VISUAL COMMUNICATION

This professional programme is an attempt to understand the visual media and computer / information technology configuration. It challenges students in terms of both their ability to understand communication technology and their creative self-expression. Apart from imparting functional skills in computer applications and information technology, the programme provides a fabulous opportunity to understand
The various facts of communication theory, drawing and graphics, photography and digital art, sound and image, fiction and film, and theatre and cinema. This programme is heavily slanted in favour of the creative self-expression of students rather than mere mastery of technical skills. It can be taken as a stepping stone to become an actor, screen-writer, art-director, editor, photographer, photojournalist, cinematographer, documentary film-maker, sound engineer and director.

BACHELOR OF COMPUTER APPLICATIONS (BCA)

The Bachelor of Computer Applications course was started in the year 2007. The programme has cutting edge syllabi and state of art laboratory to nurture the students for a rewarding career in software development and facilitate them to apply computing technologies to solve real world problems. It builds strong foundation needed for career in computers/IT field, emphasising on emerging computer applications. This programme will equip students with the critical knowledge and capacity to take on the world with confidence. It further equips the students with strong communication skills and ability to work with, and contribute among multi-disciplinary teams, and enable them to bring a range of technologies together to develop computer systems and solutions of multi-disciplinary nature.

BACHELOR OF BUSINESS ADMINISTRATION (BBA)

In response to the popular demand for management education, the college introduced the BBA programme in 2007-08. In developing the curriculum, the department has heavily drawn from the rich experience of the Postgraduate Department of Management Studies. This will certainly serve as a feeder programme to MBA in the American College and in other premier institutions. Special mention must be made about the state-of-the-art curriculum which reflects the emerging trends in global business.

The details of the fee structure can be obtained at the time of admission.
MA ENGLISH*

The Programme

The course gives proportionate weight to language, literature, theories, project work, and job-oriented courses. It aims at facilitating students to produce knowledge and scholarship; preparing them for NET & JRF; and enabling them to find careers in publishing houses, the media, and other service sectors. Independent Project as a prelude to M.Phil English is a special feature of the programme.

Eligibility

Candidates with Bachelor’s degree in English can apply for this programme. Those awaiting the final semester / year results can also apply. All those who hold a Bachelor’s Degree in some other major subject and who have secured 60% or more in Part II English after two years of study can also apply. However their admission, if selected, will be provisional and will be confirmed only when they produce the final mark sheet of the qualifying examinations on or before the date scheduled by the college.

M.A. SOCIAL WORK

The Programme

M.A. Social Work is a full-time, four-semester programme. The first two semesters common to all students will offer general courses on various aspects of Social Work, Psychology, Sociology and Development Studies. In the beginning of final year the students will be allotted their specializations on the basis of the aptitude evinced during the first year and their performance in the interview conducted specially for this purpose. Although each specialisation will offer courses specific to itself, there will be common classes to all three specialisations during the final year.

Eligibility

A pass in Bachelor’s Degree in Social Sciences / Humanities / Business Management / Commerce or any Science degree from a recognized university is required for applying. Those who are awaiting the
final semester results can also apply. However, their admission, if selected, will be provisional and will be confirmed only if they produce the final mark sheet of the qualifying examinations on or before the deadline fixed by the college in this regard. Applicants are requested to provide details of any other qualifications and work experience.

M.SC. PHYSICS*

The Programme

The M.Sc. Physics course has core papers that are fine tuned not only for passing the competitive and NET examinations but also for pursuing research in core and interdisciplinary subjects. The practicals are conducted in the well – established PG and Research laboratory, and hands-on-trainings for operating instruments are provided. Field exposures are also given through frequent visits to industries, universities and research institutes. On completion of the course, students can continue their research studies in M.Phil. and Ph.D. in our and other colleges, universities & research institutes.

Eligibility

Candidates with Bachelor’s degree in Physics can apply for this programme. Those awaiting the final semester / year results can also apply. However their admission, if selected, will be provisional and will be confirmed only when they produce the final mark sheet of the qualifying examinations on or before the date scheduled by the college.

M.SC. ENVIRONMENTAL SCIENCE*

The Programme

The college realizes the huge responsibility on the part of the institutions to educate the students to make them aware of the need to protect and sustain the environment. To achieve this, the college has started M.Sc. Environmental Science to cater to the growing demand for Environmental Scientists. Environmental Science as a career offers immense job opportunities in International level organizations like United Nations Environment Programme (UNEP), Inter-governmental Panel on Climate Change (IPCC), International organizations related to Environment and Earth System Governance Project and National level departments like Ministry of Forest & Environment, Water Resources and Agriculture, Forest & Wildlife Management, Pollution control boards colleges and universities.

Eligibility

Candidates with a Bachelor’s degree in any life science subjects Botany / Zoology / Microbiology / Environmental Sciences/Physics/Chemistry/Biochemistry/Geography and Agricultural Sciences are eligible to apply. Those who are awaiting the final semester / year results can also apply. However, their admission, if selected, will be provisional and will be confirmed only when they produce the final mark sheet of the qualifying examinations on or before the deadline fixed by the college in this regard.

M.SC. IMMUNOLOGY AND MICROBIOLOGY

The Programme

The first of its kind in India, the M.Sc. Immunology and Microbiology programme offered since 2002, gives special emphasis to Immunology and Microbiology. Core courses include Human & Veterinary Immunology, Molecular Immunology, Immunogenetics, Immunology of Infectious Diseases, Vaccinology and Immunotechnologyes, Principles of Microbiology, Microbial Physiology, Microbial Genetics and Molecular Biology, Microbial Gene Technology, Food and Dairy, Agricultural, Veterinary, Medical and Environmental Microbiology.
This programme also includes allied courses like Cell Culture, Bioprocess Technology & Bioinformatics. The Programme provides hands-on practical training in Immunological and Microbiological techniques and research project in areas such as isolation and characterization of pathogenic microbes from vectors, epidemiology of vector borne diseases, assessment of the efficacy of diagnostic kits, Genotoxicity, Agricultural & Environmental Microbiology, DNA Technology and Culture. Further each student has the option to undergo summer training in research institutes/industries for a period of 4-6 weeks during the vacation between the first and second year.

Eligibility
Candidates with a Bachelor’s degree in any life science subjects (Zoology / Microbiology / Biochemistry / Biotechnology / Botany / Biology / Pharmacy / Food & Nutrition / Nursing) are eligible to apply. Those who are awaiting the final semester / year results can also apply. However, their admission, if selected, will be provisional and will be confirmed only when they produce the final mark sheet of the qualifying examinations on or before the deadline fixed by the college in this regard.

M.SC. FOOD SCIENCE*
PG programme in Food Science trains students in the thrust areas of food science such as Food Processing and Preservation, Food and Health, Human Nutrition and Food Biotechnology. A Memorandum of Understanding (MoU) exists between Central Food Technological Research Institute (CSIR – CFTRI, Mysore) and The American College, Madurai to provide hands-on training to students and for pursuing academic projects. M. Sc Food Science syllabus has been prepared with inputs and guidance of scientists of CFTRI and industry partners.

Food Science professionals are in great demand in the following fields
• Teaching faculty and Research scientists in educational and research institutions.
• Project officers/Coordinators in health and nutritional development programmes of government and non-governmental organizations.
• Food quality controllers in Food Processing units
• Entrepreneurs

Eligibility:
• A pass in any one of the following undergraduate programmes with a minimum of 50% marks in Part III subjects.
• B. Sc programme in Food and Nutrition, Food Science and Quality Control, Clinical Nutrition & Dietics, Food Technology, Home Science.
• B. Sc programme in Zoology, Botany, Microbiology, Biochemistry and Biotechnology.

M.PHIL RESEARCH PROGRAMMES

The College offers M.Phil Research programmes in Tamil, English, Economics, Commerce, Mathematics, Physics, Chemistry and Business Administration.

Eligibility

Men and women candidates with 55% (50% for SC / ST ) in respective disciplines can apply. Those who have appeared for the final semester examinations in April 2016 and are awaiting results can also apply with marks obtained in the preceding three semesters.

The selection will be on the basis of marks secured in the M.A. / M.Com / M.Sc. examinations.

HOSTELS

Limited hostel facilities are available. There are four hostels for men: Washburn Hall, Dudley Hall, Wallace Hall, and Zumbro Hall. Women’s Hostel is also located in the main campus itself with limited accommodation. Separate application forms are available with the Bursar’s office for admission to hostels. The mess is run on the dividing system and boarding charges come around Rs.2000/- per month. At the end of every month the actual boarding charges will be divided among the members of the mess and the amount will be collected from the members before the 10th of the succeeding month.

INTERNATIONAL STUDENT EXCHANGE PROGRAMME

The American College permits students to continue part of their degree programme abroad under different exchange programmes. The college has collaboration with UBCHEA programme- USA, Appalachian State University-USA and Hildesheim University-Germany for the exchange programme. From this academic year undergraduate students of American College belonging to Economics, Commerce, Business Administration, Visual Communication, English, Religion - Philosophy & Sociology, Bio-chemistry, Micro-biology, Zoology and Botany have the opportunity to pursue the final year of their degree in Concordia College, New York, USA. This has been made possible by the memorandum of understanding signed by the 135 year old American College with Concordia College, New York, USA.

A student, who gets 70% in his/her undergraduate studies in the second year, is eligible to continue his/her third year studies in Concordia College. The undergraduate students can pursue their remaining tenure in the Concordia College, New York, under American Transfer Program (ATP). In order to get a degree aboard (including Concordia College Degree) a student has to study eight semesters whereas a student of the American College, who completes two years of study, has to undergo only three semesters of study to get an undergraduate degree. A salient feature of the ATP is that student who has gained an undergraduate degree from Concordia College New York would be able to pursue his/her Master’s degree either at Concordia College or at The Valpraiso University, Indiana (an associate University of Concordia College) and complete within a year.

An eligible student gets a scholarship of $10,000 and if he/she scores 85% of marks in his/her academic study gets a maximum scholarship of $15,000.

The mandatory requirement is that students should pass TOEFL/IELTS exam. Training will be given by the College in TOEFL / IELTS to those students who are eligible for this programme.

Concordia College is one of the best Colleges in the United States of America for higher studies. Both The American College and Concordia College are similar in many ways. Both were established in the year 1881 and have similar purpose in serving the community which both the colleges are engaged in for the past 135 years.
The Concordia College has a liaison office in Chennai which will cater to the needs of the students who are willing to study abroad. Director operations from Concordia India liaison office will interact with students and parents of the American College on the day of the orientation.

OTHER FEATURES

Associations

There are various academic associations in the college. These associations provide opportunities for students to further explore and develop their academic and professional interests by organizing activities beyond the classroom.

Societies

Besides the associations, there are the Hindu Cultural Society and the Islamic Cultural Society for which membership is optional. Both Christian and Non-Christian students are welcome to join the Student Christian Movement as members.

Students Services

The Students Services Committee aims at integrated development of students by organizing various development programmes. It also provides various services to students and takes care of their welfare.

Placement Services

The Placement Cell organizes On-campus and Off-campus recruitment drive to facilitate students’ careers in leading companies, MNCs, Banks and Educational Institutions.

Students Grievances Redressal Committee (SGRC)

SGRC ensures speedy redressal of student grievances arising out of their academic and other related transactions with college authorities during their course of study in the college. The chairperson of SGRC is a person of high ranking with exposure to educational administration and quasi-judicial affairs.

Libraries

The Daniel Poor Memorial Library of the college is the earliest Public Library in Madurai with open access system, housing about 1,46,000 books. It subscribes to 700 different journals covering a wide range of subjects. Students can use internet facility at the library. The library is kept open from 8 a.m. to 8 p.m. on all working days. Each student can withdraw a maximum of 10 books at a time. Apart from this, every department has its own specialized library. SCILET (Study Centre for Indian Literature in English and Translation) is a research library, housing about 11,000 books and 75 Journals. Access to e-resources is available in the library. Free Internet Café for the exclusive use of students is also provided in the library.

Sports & Games

There is a vast playing area with a football and a hockey ground, a cricket pitch, 3 tennis courts, flood-lit basketball and volleyball courts. The college produces the maximum number of university blues in the following sports and games: Athletics, Hockey, Football, Volley Ball, Cricket, Tennis, Table Tennis, Shuttle Cock, Kho Kho, etc. Students are encouraged to utilize the playing area during free time.

Gymnasium

The college has a modern gymnasium and every student is encouraged to purchase a gym-card for a small fee.
Central Instrumentation Centre (CIC)

CIC is an advanced laboratory infrastructure common to all science departments. It houses very sophisticated equipment like Scanning Electron Microscope, X-ray unit for crystal diffraction and High Temperature Furnace for crystal growth.

Campus Information System (CIS)

The college is establishing a Campus Information System (CIS) which would provide students attendance status, internal assessment marks and fee payment details to the faculty and the students. They can access the database of more than one lakh books present in the DPM Library through individual login.

HOW TO FILL-IN THE APPLICATION FORM?

All applicants should indicate on their forms the programme for which they wish to be admitted. If they wish to be considered for any other programme(s), separate application form(s) should be submitted for such programme(s). All applicants should affix their passport size photographs taken within a period of three months in the space provided. The applicants should ensure that correct marks are furnished in the application form.

The following should be attached to the application form:
1. A self-addressed stamped (Rs.15) envelope.
2. Attested photocopy of mark statement in the qualifying examination / Downloaded mark statement certified by the Headmaster / Headmistress concerned.
3. Attested photocopy of the Community Certificate.
4. In case of CSI Christians of Madurai-Ramnad Diocese or Christians of any other denominations a certificate from the pastor of the church should be enclosed, along with a photocopy of the membership card.
5. Differently abled applicants should produce medical certificates to support their claim.
6. Sports persons at the District / State level should submit copies of relevant certificates.
7. Applicants whose parents are not graduates should submit a certificate from the Headmaster / Headmistress of the school last studied to avail the reservation for first generation learner.
8. Children of Ex-servicemen/Defence personnel should submit copies of certificates to substantiate their claim.
9. Applicants of Tamil origin from Andaman-Nicobar Islands should submit a certificate to this effect.
10. Overseas Applicants should submit Eligibility, Passport and Visa Documents.

Submission of Application Forms

The completed Applications must reach the Principal’s office within 5 days from the date of publication of +2 results. However, for PG and M.Phil programmes, the completed applications must reach the Principal’s office a day ahead of the entrance test. Applications can be submitted in person at the Principal’s office during working hours. Alternatively, the applications can be sent by post to The Principal, The American College, Madurai – 625002.

Intimation of Admissions

Those who are provisionally selected will get an admission letter. Admission cannot be guaranteed if the directions on the admission letter are not strictly followed. Selected candidates are advised not to ask for postponement of the dates on which the semester fee has to be paid. Any delay in payment will be at the risk of the candidate. Selection List will also be published in the college notice board and in the College Website www.americancollege.edu.in
Mode of Payment

All payments are to be made at the extension counter of the Indian Bank in the college campus during banking hours through a challan (available with the college office). The bank is open on all days except Sunday and government holidays.

Payments can also be made online through Credit or Debit Cards, or Net Banking by visiting our website www.americancollege.edu.in.

*NOTE: Fee once paid will not be refunded

Submission of Certificates

Selected candidates will be required to submit one copy of their passport size photograph along with T.C., Conduct Certificate and original Mark Statement at the Orientation Programme. They are also advised to keep with them the attested copies of Higher Secondary Examination Mark Sheet, T.C., etc. before handing over the originals to the college. These copies may be required later while applying for scholarships.

Reservation of Seats for Differently Abled Persons

As per the Government norms, seats are reserved for differently abled persons.

DISCLAIMER

The conduct of academic programmes is governed by the rules and regulations of The American College and Madurai Kamaraj University. Due care has been taken to ensure the exactitude of information. The American College reserves the right, at its sole discretion, to amend/change the terms, conditions and fees structure.
