1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained
<p>The following gives a detailed report of the issues as received by the students and the action taken for those issues by the institution during 20182019. Based on the feedback, the action taken report is given below. 1. Teaching methods and teaching aids have improved. ICT methods and smart boards were used for effective teaching. 2. There were some concern about the student’s learning and understanding of sole courses. The primary reason identified for this issue is that these courses are relatively difficult and need extra tutorials and remedial classes to make students understand those courses in a better way. Therefore, course inchargers were motivated to arrange extra tutorials and remedial classes to improve student’s understanding and for their better performance. Students took part in the feedback process fearlessly to find out the shortcomings of each department and individual teacher’s if any with classical teaching methods. 3. Students are quite satisfied with the time spent by teachers on each topic and timely completion of the course. According to the feedback of the students, it was found that the students were highly satisfied with the time spent by teachers on each course and timely completion of the courses. 4. In response to complete the syllabus on time Keeping in mind the time frame work of the syllabus, the teachers plan for classes accordingly to complete the entire syllabus in time. This helps students not only to prepare for entrance exams but also makes them over all performers. The syllabus was revised and implemented from July 2018, based on student feedback. We have conducted extensive student teacher interactions and incorporated their suggestions. The data collected by the IQAC was sorted and consolidated for drafting the analysis report. The data entered in the selected format was</p>

converted into a chart and decoded for proper comprehension of the issues. The analysis is done as parameter wise. The aspects pointed out by all the students are considered with special care and attention. The suggestions received through the feedback are promptly communicated to the members of the various Boards of Studies, Committees and those participated in the Syllabus Revision Workshops conducted by the Institution. Proper suggestions were formulated and communicated to ensure the proper redressal of student's academic grievances.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The college has a unique system of having faculty as academic advisors to each class of students. One academic advisor is allotted around 30 students for mentoring. They keep a track record of the student's personal background, academic context, internal assessment, end of semester exam marks and also extracurricular talents. The academic advisors motivate the students to perform effectively in studies and other extracurricular activities. The college does its mentoring in student's individual talents and aspirations by providing exposure and opportunities through Students Service Support Committee, Rotaract Club, Soropti Youth Club and Green Club. The College has a natural System of student monitoring through academic and noncurricular policies, programs and activities by developing efficient learning and unlearning strategies which support capitalize on student/learner motivation, progression and success. The Object and mission of the college is studentcentric and its focus is to train them in the service of God and Humanity in order to make responsible global citizens. The college has an interdependent and independent system for student support and mentoring through operationalization of inclusive academic bodies like the Academic Council, Boards of Studies, various Committees in terms of student membership. Since the student represent different regions, religions, languages and nationality, the college is providing not only serious academic culture but also ambience where students learn life and social skills. The system provides a right, participatory/inclusive, interdependent and dependent space for student support and mentoring. This unique system helps students experience clean, green and lean academic programmes.

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

Our 44 acre campus is highly protected by the lush green even in the hot summer. Madurai city's normal temperature is 24 to 40 degrees. The green initiatives ensure less temperature inside the campus. The campus temperature is 2 degrees lesser than the outside temperature.
Noise pollution in Goripalayam area where the college is located perhaps

crosses 75 dB during peak hours. Where as inside our campus the big old trees silently play as noise absorbers. As a result, the recorded noise level is not beyond 55 dB. The green initiatives facilitate conducive environment for learning.

Along with the display of Academic events and information, environmental awareness slogans are also displayed in the digital board. Flex board usage is prohibited inside the campus to motivate students to get adapted to the plastic free zone concept.

Green Pastures and ornamental plants are planted at various points inside campus to make the students stress free and increase the aesthetic sense. These zones motivate students to keep the campus plastic/garbage free.

Commemorating World Environment Day, World Soil Day, World Sparrow Day, World Wetlands Day, International Day of Biodiversity to encourage awareness among students to protect environment and animals. Saplings are issued to the students and public on these days. College administration plant saplings throughout the year during important days.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

1. Title of Practice: International Exposure and Orientation Objective: To give International Exposure and Orientation. Context: Majority of our students hail from semi urban and urban areas whom are underprivileged. Many students are first generation learners and they are given priority in admissions. The vision for our institution is to train students for international standards. Practice: Every department organises International Symposia, International Conference and Workshop and International Exchange Programmes. Our college premise is continuously being crowded with such activities. Delegates and Resource Persons all over the world take part in such programmes. Our students are provided special coaching to crack TOEFL and IELTS examination. In addition, the students are taken up to foreign countries as field tours. The faculty accompanied trips include an Institution Visit, Industrial Visit and excursion. To facilitate international trips, the DPM library looks after Passport Melas. Around 1,600 students got their passports with the help of DPM Library. In 2018 to 2019, 55 students were taken to Malaysia and another batch of 50 students to Dubai. Evidence of Success: MOUs were signed with Concordia College, Burnsville, United States, St. Clair College, Canada and Binary University, Malaysia for Credit Transfer Programmes. The academic and administrative officers frequently visit our college and deliver career counselling. During 2018 to 2019, 55 students were taken up to Malaysia for university visit and industrial visit. Another batch of 50 students were taken up to Dubai on Institutional visit. Among those visited these institutions, seven students are now continuing their higher education. 2. Title of Practice: Fee Waiver to sports students Objective: To motivate the students excel in sports and represent college. Context: A good physique makes a sanity mind. The Physical Education Department, trains more than 1,000 students in various sport activities every year. Practice: College offers concessions and waivers in fees to those students excel in sports and games. This assistance is provided from Principal's Discretionary Fund. Evidence of Success: During 2018 to 2019, the students who represent college in various sports and games viz., Athletics, Basketball, Swimming, Handball, Chess, Football, Hockey, Table Tennis, Volleyball, Badminton, KhoKho, Handball Kabaddi are being honored well by the college. During this year, 100 percent tuition fee was waived for 44 students. 56 students were given with Free Hostel Accommodation along with mess. Among them 51 students were given Tuition Fees Waiver too. As a result, the college achieves highest number of University Blues, i.e., 52 during the year on various sports. Problem Encountered/ Resources Required: If government join

hands in this programme, by tapping up funds for promoting sport activities, the younger ones represent state or country in national and international tournaments. 3. Title of Practice: The Student Run Programmes Objective: To train students to lead. Context: "Leaders are not born, They are made". To witness the truth of this quote, The American College trains the students to lead and organise the course of activities in NSS, Service Learning Programme, Students Services Committee and Department Associations. They are given freedom to construct the work plan and budgets. Whenever assistance needed, there the faculty interferes. Practice: The Students Leaders in NSS and SLP identifies various avenues of services to the society. They go for field visits and pilot studies to organise the social activities. Student Services Committee volunteers receive invitations from other colleges to take part in cultural competitions. The devoted volunteers find the talented students in our college and train them to excel in extracurricular and cultural competitions. Evidence of Success: Association secretaries are the senior class students organise state level competitions for their respective department students from other colleges all over Tamil Nadu with their and their junior class students are deputies. The students themselves elect Secretaries and other office bearers to their association. Our college has more than 15 associations viz. Kurinji for Tamil, Pegasus for English, OIKOS for Economics, COMMAS for Commerce, REPHISO for RPS, ANALGEOCA for Math, PHOBAS for Physics, CHEMFEST for Chemistry, BOT, ZOOFEEST for zoology and BYTES for computer science departments. They fix the dates, design and print invitations, flyers and handouts. They also find chief guests, sponsors and media partners themselves. The faculty members are the onlookers. Such independent ventures build a good leadership skill among the students. This could not be found in any other institutions. Problem Encountered/ Resources Required: As many of our students are from underprivileged background, they need financial assistance to fulfil their dreams. College management arranges financial assistance for those students from HDFC bank, ICICI bank and Canara bank. 4. Title of Practice: Student Induction Programme Objective: To prepare the school pass outs for college education. Context: The American College is conducting SIP for the past 5 decades in the most successful manner under the Name of "FRESHMEN ORIENTATION". Practice: The days before admission, the candidates are entertained inside the campus for acquiring and filling applications. During the year 2018 to 2019, more than 25,000 applications were being bought for 3,500 seats. The stay inside the campus during the period, the candidates and their parents were guided by the volunteers of Students Services Committee accompanied by a group of faculty members, in opting for a course, student parent counselling, application filling, application tracking and downloading admission call letters. The volunteers of SSC stay over a period of 21 days on entire admission process. Induction Programme is run for a week by the college through SSC. The Programme included, conducting Orientation for freshers, Parent Teacher Meeting, Parent Warden Meeting, meeting with College Officio, Campus Tour, visit to departments, CBCS course orientation and course registration, Part V courses orientation and selection viz., NSS, SLP, PED NCC, Dean - Students Meet and Talent Tapping. Evidence of Success: The entire college faculty, nonteaching staff and student volunteers take care of the new students. The parental care shown on the new kids, soothes parents on the chaos of their ward's future. On the first day of college all new students were provided with good vegetarian lunch. The students were given with college calendar and handbook titled "Know Your College" to adopt for the new atmosphere.

7.3 - Institutional Distinctiveness 7.3.1 - Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

1. The American College realizes the strength of its own alumni. Our alumni are actively participating in all the forums like BOS, Academic Council, IQAC, Finance and Property Committee and in Governing Council too. The alumni are the part and parcel of our college. Their existence in various planning forums ensures century old tradition and ethos of our college. Many of the faculty members are the alumni in every department. This helps us to bridge the generation gap between the millennium kids and teachers. In addition, alumni contributions in terms of lab equipment, endowments, career guidance and employment are the boon to our college. The students as beneficiaries, learn the art of giving to society where from the hail. Heartbeat of the missionaries who shed blood and life for building this great institution is still hearkened through our alumni's contribution.

2. Education means 'Development of Humanity'. Knowledge without humanness does profit nothing. Our college believes in Value Based Education which can mold the future generation. The periodic visits to Old Age Homes and Orphanages inculcate the humanity and charity among the young minds. In every department, the students organise themselves such visits during festival seasons. They collect gift materials, food, stationery, toiletries, and other health care products from fellow students and friends for the inmates of orphanages and old age homes. The students visit homes and orphanages after the college hours are accompanied by faculty members. They spend a few hours in celebration at orphanages and homes. Our college students excel not only in studies, they are also extraverts in the community. The intuition to do charity is the crux of socialization. Such inclusiveness is being derived not out of the syllabus. The customs and practices followed in college during the tenure of their education is remembered lifelong.

3. Students take up the responsibility of capturing digitally, the valuable moments of every activity of our college. The contribution by the students owe a royal salute as the digital photographs and video graphs can be kept as treasures for many centuries. The voluntary involvement adds flavour and colour to the events. They not only handle camera, but also prepare huge stage backdrop sets for college day and other department association functions. These sets are priceless art work and exhibit the students' creativity. They are ofcourse, more than professionals. Also, they underwent Digitization of Old and Rare Books available in the Daniel Poor Library. So far, they have digitalized 1,405 books and in 2018 to 2019 they digitalized 384 books. This amazing work was done by eight students along with library staff. Four hours a day, apart from their regular work was spent. This meticulous service rendered by them strengthens the initiation of eLibrary.

8.Future Plans of Actions for Next Academic Year

1. Differently Abled Friendly Campus: There are 7674 students doing their UG/ PG/ Research programmes in the main campus. Whereas, 21 of them are physically challenged. They have special provisions in library, laboratory and athletics. As these students find problems in accessing to various buildings, the college management plans to convert the campus 'A Differently Abled Friendly Campus' in the forthcoming years.

- The special pathways to run battery operated cars and wheel chairs are in planning stage.
- DPM library has already installed a Talking Software by NVDA to assist the visually challenged students.
- Ramps and Lifts

are to be constructed in select buildings for easy access by them. • NSS units help the visually and physically challenged students in arranging for Scribe. The present and former students act as scribes during examinations. 2. Developing eLearning Environment: Technology and gadgets play pivotal role in the modern era. The millennium kids are being addicted to these. Good addiction leads to better utilisation. Hence, in our college the students are allowed to use modern gadgets viably. The freedom for use of modern gadgets develop good ambiance for learning. The teachers also demonstrate hard topics through eResources. • The assignments are being submitted to course teachers through mail. The soft copies are tested carefully with plagiarism tools. • Most of the quizzes as a part of Continuous Internal Assessment are done online. This facilitates the effective participation of students even off from campus. The scores are immediately known by the students at the end of the quizzes. • Online Qualifying Examination for SAP was conducted for 60 students in the central lab during the year. This Certificate Course attracts better placement in corporates for Accounting Professionals. This online Certificate Course was conducted on campus in collaboration with IPA Academy, Cochin. 3. Finding avenues to reach the unreached society: The mission of the college is to train the underprivileged for global requirements. The SLP units identify and adopt villages for grooming kids for challenges. Right from their schooling they are given orientation by SLP volunteers. Our SLP volunteers visit the young kids at their village schools and teach them basics of life and make them aware of challenges for global placement. This programme is very effective and as a result, many of the higher secondary students from villages trained by our SLP volunteers, opt for undergraduate programmes in our college in recent years. Already, students from neighbouring schools visit our college laboratories for demonstration. This will be extended for nearby village schools in the years to come.
